

TMX GROUP HISTORY AT A GLANCE

The following is a timeline of significant events in the organization's history.

1852

A group of Toronto businessmen met on October 24, 1852 with the intention of forming an "Association of Brokers". The association created that day established the framework for Toronto Stock Exchange. Although they may have traded in shares that were available at that time, no official records remain of the groups' transactions.

1861

A resolution was passed by the association to formally create Toronto Stock Exchange. In its early years, Toronto Stock Exchange trading volume was very modest, amounting to two or three transactions daily. Trading hours were limited to daily half-hour sessions and the trading list consisted of 18 securities. The cost of membership was \$5.00.

1871

Toronto Stock Exchange had 14 member firms -- each paid \$250 to purchase a seat.

1878

Toronto Stock Exchange became formally incorporated by an Act of the Ontario Legislature.

Toronto Stock Exchange moved into its first permanent headquarters at 24 King Street East in Toronto.

1901

The price of a Toronto Stock Exchange seat or membership rose to \$12,000. Trading volume approached 1 million shares per year and 100 companies were listed. The Exchange moved to 20 King Street East and continuous auction trading was introduced.

1913

The Exchange built and moved into its own building on Bay Street. Technological advances lead to the introduction of the first print-out-ticker which carried a series of trading prices as well as bid and ask offering quotations.

1914

The fear of financial panic when World War 1 was declared prompted Toronto Stock Exchange to cease operations for three months, beginning July 28, 1914. Trading was also halted on the New York Stock Exchange.

1918

As corporate profits rose during that war, so did stock prices. The 1918 Armistice marked the beginning of a highly speculative and inflationary period in the economy. This was followed, in 1919, by a recession characterized by sharp declines in commodity prices.

1922-1926

Canadian corporations issued securities worth more than \$700 million. The number of shares traded in 1924 was 908,000. Five years later, the number of shares traded grew to over 10 million a year.

1933

A worldwide depression inflicted financial hardship on Canadians. In the United States over 2000 investment and brokerage firms closed. No Toronto Stock Exchange members defaulted on their obligations to clients.

1934

Toronto Stock Exchange merged with its key competitor, The Standard Stock and Mining Exchange. The merged markets adopt the name, Toronto Stock Exchange. Yearly trading value exceeded \$534 million.

1936

Toronto Stock Exchange became North America's third largest exchange.

1937

Toronto Stock Exchange moved to a new facility at 234 Bay St., the first building in Toronto to have air conditioning.

1955

The price of Toronto Stock Exchange membership was \$100,000 and a record 1 billion shares traded worth \$2.6 billion.

1958

For the first time, the Toronto Stock Exchange Board of Governors required listed companies to file statements disclosing any change in the company's affairs, which might affect the price of its shares.

1960

Lieutenant General of Ontario, Howard D. Graham, became the first outsider to be appointed President of Toronto Stock Exchange. All prior presidents were appointed from Member Firms.

1977

J. Pearce Bunting was named the President of Toronto Stock Exchange. He held that position for 18 years, the longest tenure of any Toronto Stock Exchange President.

Toronto Stock Exchange launched the world's first Computer Assisted Trading System (CATS). The same year the TSE 300 Composite Index® was launched.

1980

Volume of shares traded on Toronto Stock Exchange reached 3.3 billion, valued at \$29.5 billion, and Toronto Stock Exchange accounted for 80% of all equity trading in Canada.

1983

Toronto Stock Exchange moved to its current location in the Exchange Tower at 130 King Street West.

1987

The Toronto 35 Index® is created.

On October 19, 1987, stock markets around the world suffered a major correction. The TSE 300 Composite Index dropped more than 400 points in very active trading.

Trading for the year topped \$100 billion for the first time ever.

1995

Rowland W. Fleming was named President of Toronto Stock Exchange, replacing Pearce Bunting. He served as President for four years.

1996

Toronto Stock Exchange became the first exchange in North America to introduce decimal trading.

1997

Toronto Stock Exchange became the largest stock exchange in North America to choose a floorless, electronic (or virtual trading) environment when its trading floor closed.

1999

Toronto Stock Exchange announced the appointment of Barbara G. Stymiest to the position of President & Chief Executive Officer. She became the first female president of a North American stock exchange.

Through a realignment plan, Toronto Stock Exchange became Canada's sole exchange for the trading of senior equities. The Montreal Exchange assumed responsibility for the trading of derivatives and the Vancouver and Alberta Stock Exchanges merged to form Canadian Venture Exchange (CDNX) handling trading in junior equities. The Canadian Dealing Network, Winnipeg Stock Exchange, and equities portion of the Montreal Exchange later merged with CDNX.

Toronto Stock Exchange won Royal Assent from the Lieutenant Governor of Ontario to convert the Exchange into a for-profit organization.

Toronto Stock Exchange set yearly trading records of 29.3 billion shares, valued at \$529 billion.

2000

Toronto Stock Exchange monthly trading topped \$100 billion for the first time ever in March 2000.

The demutualization process is completed when The Toronto Stock Exchange Inc. became a for-profit company, on April 3.

Daily trading value topped \$15 billion for the first time ever in May 2000.

Toronto Stock Exchange opened an office in Montreal.

2001

Toronto Stock Exchange completed overhaul of its trading platform.

The Toronto Stock Exchange completes the acquisition of the Canadian Venture Exchange. CDNX renamed TSX Venture Exchange in 2002.

TSX Venture Exchange stock list migrated to the Toronto Stock Exchange trading platform in December 2001.

S&P/CDNX Index was launched on December 10, 2001. The Index was renamed S&P/TSX Venture Composite Index in May 2002.
